

ALP AFRICA (PTY.) LTD.

OVERSEAS

AUTOMOTIVE SEALS

WORLD CLASS AUTOMOTIVE SEALING SYSTEMS

ALP overseas is one of the leading companies in development and production of weather sealing profiles for the automotive industry. High quality EPDM Rubber profiles are used to seal doors, windows and trunks in the automotive industry. The profiles have many applications like sealing, noise control, vibration control and keeping rain water and dust from entering the vehicle.

- Weather sealing systems
- Thermal and acoustic insulation systems
- Automotive accessories
